Abbreviations used for this:

Farming Fortune: FF **Peridot Gemstones: Peri** **Perfect Gemstones: Perf**
Overbloom: OB **Crop Fortune: CF** **Bonus Pest Chance: BPC**

Table Indication:

<i>Tasks/Profile</i>	Normal	Ironman
Crops to farm	May optionally choose each best crop tier of armor drops	Needs to farm every single crop for other aspects of the garden
Visitors	Accept everything until Visitor Milestone maxed (2500 I suppose), Then reject those visitors providing copper less than 1k per	You literally can't reject them as you can't buy anything on here, if you reject = Bozo
Progression	Generally, the same differences will be mentioned later.	
Jacob's Contests	Please do this, don't be a Bozo unless you have all Diamond and Milestones and Extra CF maxed from Anita	

Gemstone Fortunes:

Cropie and **Squash Armor** comes with a **Peri** Gemstone Slot.

Meanwhile **Fermento** and **Helianthus** comes with an additional **Peri** Gemstone Slot, sums up to 2 slots.

Here are the **FF** given based on armor rarity:

Rarity/Gemstone Tier	Common	Uncommon	Rare	Epic	Legendary	Mythic
Rough	+0.5	+1	+1.5	+2	+2.5	+3
Flawed	+1	+1.5	+2	+2.5	+3	+4
Fine	+1.5	+2	+3	+4	+5	+6
Flawless	+2	+3	+4	+5	+6	+8
Perf	+3	+4	+5	+6	+8	+10

Armor Progression:

Farm Armor (Generally you start from here, both Ironman and Normal)

Normal Profiles:

Purchase a **Sundial (TOP PRIORITY)** on the **Auction House**

As it lets you to throw away **Rancher's Boots**, using the 4/4 Farming sets instead of 3/4, you get more

After the **Sundial**, you're getting **Melon Set** (Use 3/4 if you don't have **Sundial** yet but craft the full set)

For Ironman:

Good Luck on doing Greenhouses, which will be explained later.

Stick to **Rancher's Boots** before even getting this.

For Both Profiles:

After **Melon Set**, you can farm **Wheat, Carrot, Potato** any 1 of them to get **Cropie**, and the **Cropie Talisman**.

You'll need **80 Cropies** for the **whole 4/4 set**, **256 Cropies** for the **Cropie Talisman**.

You get a whopping **1/2000(0.05%)** chance of getting one **Cropie** with **0 OB** when wearing **4/4** of the set.

After getting the **Cropie** set, farming **Pumpkin, Melon, and Cocoa Beans** have a **0.03%** chance of dropping **Squash** while wearing **4/4** of the set. It requires **80 Squashes** to craft from **Cropie**.

After **Squash**, farming **Sugar Cane, Cactus, Mushroom and Nether Warts** will drop **Fermento**, with a **0.007%** chance of dropping when wearing **4/4** of the set, with **0 OB**. It requires **8 Condensed Fermento**(**1 Condensed** is crafted by using **9 Fermentos**) to get it.

You are now on the **Last Tier** of the armor, **Helianthus**, by farming **Sunflowers** (Set your Garden time to **Day**), **Moonflowers** (Set your Garden time to **Night**), **Wild Roses**, with a **0.004%** chance of dropping a **Helianthus** with **0 OB**. It also requires **8 Condensed Helianthus** (**1 Condensed** is crafted by using **9 Helianthus**) to get it.

Pets:

For **General Farming Pets** (Breaking Crops):

Rose Dragon being the **BiS** for it as it provides a large amount of **FF**.

Mooshroom Cow and **Elephant Pets** are the alternatives for them.

Mooshroom Cow for *slightly* more coins due to the **Mushroom** drops.

Mythic Elephant for Sowdust Buffs.

Pet Items, put either a **Green Bandana**, **Lucky Clover** or a **Poignant Lucky Clover** (Most Recommended)

For **Pest Farming Pets** (For Pest spawning):

Mosquito (Legendary) being the **BiS** for this, a **Common** Pet would do for now.

A **Slug Pet (Legendary only)** is the alternative to this.

Pet Items, **Brown Bandana** is the only one, **BiS** for **Pest Farming Pets**.

Equipment:

Generally, you would be starting **Pest Farming** after you get **Farming 60**, **UNLESS** you know what you're doing, or you're just ruining your rates.

During Normal Farming, you will use **Peony or Blossom** Equipment as it provides the most **FF** for that.

During Pest Farming, you'll be using the **Pesthunter ¾ set**, with the **Pest Vest**. While you're **killing Pests**, you'll do a swap from **Pest Vest** to the **Pesthunter Cloak**.

Enchantments:

Armor Enchantments:

Ultimate Enchant: Sunset 1~5

Normal Enchants: Pestterminator 1 ~ 6, (Boots only:) Feather Falling 10, Sugar Rush 3, Depth Strider 1~3(Farm dependent)

Tools Enchantments:

Ultimate Enchant: Crop Fever 1 ~ 5

Normal Enchants:

Delicate 5

Replenish 1

Efficiency 5

Cultivating (From Bits Shop)

Dedication 3 or 4

Harvesting 5 or 6

Turbo-Crop 1 ~ 7

Feast 1 ~ 5

Equipment Enchantments:

Necklace: (Optional)Quantum 3 ~ 5

Green Thumb 1 ~ 5 on every Equipment

Vacuum:

Bug Blender 1 ~ 5

Reforges:

Tool:

Blessed for more **Farming XP** Rates,

Bountiful for extra coins upon breaking crops,

Overpriced for extra **OB**,

Deepfried for during **Feast Events**, More **Seasoning Drops** (Feasts will be explain later)

Armor:

Mossy for **FF**, **Mantid** for Extra **BPC**.

Ideally you would need 2 Sets but that's Optional.

Equipment:

Rooted for **Peony/Blossom**,

Squeaky for **Pest Vest/Pesthunter's Set**.

Vacuum:

Beady as the **BiS** Reforge

Tools Priorities

Note: This is just a Early Game priority, you will still need to get all tools for Museum.

Normal Profiles

(My personal Experiences)

Melon Axe/Pumpkin Axe over everything, then get the **Armor Specific** required tools.

Why? Brother. You can buy almost anything of the enchants (Replenish, Delicate) on the Bazaar.

Ironman Profiles

Cocoa Axe would be your first tool due you are going to need a lot of them on the future tools you're getting.

Afterwards get **Melon/Pumpkin Axes**, aim for these and get over like the **Normal Profile**.

Overbloom (OB) Stat Explanation:

A specialized Farming stat that increases the likelihood of finding Rare Crops while harvesting. (This shit is broken OP as fuck)

Each point of **OB** represents a 1% chance to trigger a rare crop drop. When the stat exceeds 100, it allows for multiple rare drops from a single harvest.

For example, having **120 OB** guarantees one rare crop drop and provides a 20% chance to obtain a second one simultaneously. (Personally, tested it worked)

All ARMOR Drops,

Seasonings (1/2250 chance when breaking on season crops),

Feast Drops (1/18000 when breaking on season crops, Pests also drops upon killing during Feast),

Pest RNG Drops,

Burrowing Spores (1/350k when breaking Mushrooms),

Warty,

Ethereal Vines,

Wild Strawberry Dye

are considered as **RARE DROPS** and It is affected by **OB**.

Increasing Overbloom

Pets:

Rose Dragon: 20.2 ~ 40 Flat OB Upon Level 101 ~ 200,

Hedgehog: +35 OB towards Pests

Chips:

Rarefinder Chip: 20 ~ 60 OB Upon Level 1 ~ 20

Reforges:

Overpriced reforge: **7 OB** on tools

Enchantments:

Sunset 1 ~ 5: + 1 OB per Level during Day on Garden – on armor,

Crop Fever 1 ~ 5: gets +15 OB upon triggering a Crop Fever, which is up to 0.005% (on a Crop Fever 5),

Feast 1 ~ 5: +2 ~ +10 OB on a tool

Attributes:

Cropeetle Shard, +10 OB for Rare Crops,

Pest Shard: +20 OB on Pests

Accessories:

Freshly Baked Talisman, Ring, Artifact, Relic, Heirloom: +1 ~ +5 OB outside Feast, x2 the accessory's OB during Feast.

Consumables:

Finn's Focaccia: +5 OB, until the Event ends BUT CAN ONLY BE USED DURING GRAND FEAST.

Grand Feast:

While **Finnegan** is in office (Mayor typically when he has the perk) with the **Grand Feast** perk, the **Harvest Feast** becomes the **Grand Feast** with the following changes:

- The **Grand Feast** now runs for an entire **Skyblock Year**.
- **Kernels** are obtained by donating **Seasoning** (Auto donation btw, no physical entity) to the Communal Stew during a **Grand Feast** and by obtaining **Feast Milestones**.
- **Feast Baker Scott** appears at the **Communal Stew** to sell exclusive items.

- There are now **9 Feast Milestones** **INSTEAD** of 5.
- The **Commemorative Mason Jar** reward is replaced with a **Grand Commemorative Mason Jar** (/visit YuanLinPlays to look at the Jars)

Feast Drops:

Name	Crop	Craftable Items	Coordinated Pest to Drop
Cornucopia	Wheat	• Not Very Moldy Bread • Cornucopia Crystal	Fly
Carrot Zest	Carrot	• Poignant Carrot Bait • Carrot-Colored Vinyl Set	Cricket
Aggourdian	Pumpkin	• Overpriced Drink • Turbo Gourd • Enchanted Turbo Gourd	Rat
Deepfries	Potato	• Hashbrown	Locust
Cane Knot	Sugar Cane	• Thermodynamic Armor • Unalloyed Speed • Speed Relic	Mosquito
Melon Juice	Melon	• Trunk Polish • Melon Juice Mixin	Earthworm

Cactus Flower	Cactus	• Prickly Creeper • Potted Cactus	Mice
Designer Coffee Beans	Cocoa Beans	• Cocoaleech Shard • Bug Blender 1 (Book)	Moth
Feastfungus	Mushroom	• “Fragranced” Brown Mushroom Paste • Fungal Tip Jar	Slug
Botroot	Nether Wart	• Jacob’s Participation Medal • Buzzybee’s Fantabulous Disco Destination	Beetle
Salted Sunflower Seeds	Sunflower	• Sunflower Butter • Buzzybee’s Fantabulous Disco Destination	Dragonfly
Crystallized Moonlight	Moonflower	• Moondew	Firefly
Floral Gelatin	Wild Rose	• Royal Jelly	Praying Mantis

P.S. Technically **Pest Farming** is better during **Feasts**, as it boosts your **Feast** drops by 80% of the time

Priorities for Farming during Feast

Sunflower/Nether Warts (For Disco Box) = Moonflower (Sunset Books) > Pumpkin (Turbo-Crop 7 and Overpriced Reforge) > Cocoa Beans (Bug Blender 5) > Melon (For Mixin and Mythic Elephant Pet) = Carrot (Color-Vinyl Set for Accessory) = Sugar Cane (Spd Relic, Thermodynamic Armor) > Wild Rose (Royal Jelly is the upgrade for Mythic Bee Pet) > Potato (Deepfried Reforge for 2nd set of tools to use during Feast) = Other drops...

Sowdusts

A currency in the **Garden**. Can be obtained from the following methods:

- Actively harvesting crops on **Garden** using a specialized farming tool
- Harvesting crops in the **Greenhouse**

Sowdust drops are affected by **FF** and **CF**

To max all 10 Garden Chips, you’ll need 250M Sowdusts to do so.

Fun Fact: With 2600FF (Highest rn of FF you can get on farming every maxed Crop) and 20 Blocks per Second, it will take 133 Hours to obtain 250M Sowdusts.

Chips

Further permanent upgrades for **Farming**, which costs **Sowdusts** to upgrade.

It takes **21 Chips** of the same name to reach **Legendary** rarity.

The table below shows chips based on the max level of **Each Tier, Rare/Epic/Legendary**.

Name	Ability	Obtaining
Vermin Vaporizer Chip	Grants +30/+60/+100 BPC	1% Drop Rate from Dragonfly
Synthesis Chip	Analyzing a mutation in the Crop Analyzer gives 10%/22.5%/40% more Copper	3% Drop Rate from Greenhouse's Harvest Bounty
Sowlodge Chip	Grants +10/+18.75/+30 Farming Wisdom	200 Copper on SkyMart
Mechamind Chip	Grants 15%/30%/50% extra Farming Tool Experience	1 Gold Medal on Anita's Shop
Hypercharge Chip	Temporary FF buffs are 30%/60%/100% stronger	2% upon completing Visitor offers
Evergreen Chip	Gain 20%/37.5%/60% more base crops when harvesting in Greenhouse	3% Drop Rate from Greenhouse's Harvest Bounty
Overdrive Chip	Grants +50/+90/+140 CF for the active crop during Jacob's Farming Contest	2 Gold Medals on Anita's Shop
Cropshot Chip	Grants FF (+30/+60/+100)	Unlock 1 for free, 500 Copper on SkyMart
Quickdraw Chip	Decreases the time for Visitors to appear when harvesting Crops by 15%/30%/50%	2% upon completing Visitor offers
Rarefinder Chip	Increases Overbloom by 20/37.5/60	Rarely drops from farming crops (0.00015%)

Shards

How to access Attribute Shards Menu

1. Do /am in game
2. Move your cursor to the Eye of Ender, Left click until it reaches **Farming Section**

Shard Name	Shard Source	Effect (Max Level)	Amount To Max
Visitor Bait	Mudworm Shard	Garden Visitors arrive 10% faster.	96
Pest Luck	Pest Shard	Grants +20 OB against Pests .	64
Insect Power	Praying Mantis Shard	Your Vacuum deals +100% Extra Damage.	64
Infiltration	Termite Shard	Grants 30 FF if your Current Garden Plot has a Pest on it.	64
Fancy Visit	Invisibug Shard	RARE and above Visitors have a +10% chance to arrive.	48
Crop Bug	Cropeetle Shard	Grants +10 OB on RARE CROPS	48
Pretty Clothes	Ladybug Shard	Gain 10% more Copper from Visitors .	48
Lunar Power	Lunar Moth Shard	Grants 50 FF during the night.	32
Solar Power	Firefly Shard	Grants 50 FF during the day.	32
Garden Wisdom	Dragonfly Shard	Grants 5 Farming Wisdom .	32
Wart Eater	Wartybug Shard	Grants 0.1% chance to obtain a Warty when breaking Nether Warts .	24
Groovy Radar	Cocoaleech Shard	Pests have a 25% chance to drop an Extra Vinyl .	24

Overall Progression

Normal Profiles

Get Sundial →

Get 4/4 Melon Set →

Farm until 1st Helianthus Set (On Mossy) →

Hypermaxing the set and tools (Recombobulate, Perf Peri Gemstones, Overpriced Reforge, Proper Enchantments) →

Hypermaxed Equipment (Both Pesthunting + Pest Vest and Blossom, GThumb can be T1 only) →

Rose Dragon Pet Lvl 200 + Legendary Mosquito Pet Lvl 100 →

2nd Helianthus Set (On Mantid) →

Maxing everything you're using after getting a 2nd Helianthus Set.

P.S. Maxing Shards as early as possible, Chips are a long run through progression; it is also important to make use of Greenhouses as it gives an absurd amount of Sowdusts.

Some metas suggested getting a 2nd Rose Dragon Pet instead of a 2nd Helianthus Set, it is **NOT RECOMMENDED** as it will take you a longer time to payback

Ironman Profiles

Get 4/4 Melon Set with Rancher's Boots as your main boots (keep melon boots for later)

Work on getting your Sundial, you can use the "skyshards" website they have a greenhouse function as well, <https://skymutations.eu/greenhouse>

Make your farms in order of Pumpkin → Melon → Mushroom → "Megafarm" (can be seen on my garden /visit Koebatz) → Wild Rose and Sunflower/Moonflower (can also be seen on my garden /visit Koebatz)

Work on getting Mythic Rabbit pet first for the extra farming wisdom, then go for Elephant pet as well as Mooshroom Cow while leveling all the other farming related pets through exp share

Once reached Farming 60 work on finishing your Sundial as well as getting 4/4 Helianthus on Mossy reforge, working on a second set of Helianthus armor with Mantid reforge for Pest farming after

When you can go for Rose Dragon make sure you can start to mine gemstones to also start putting gemstones onto your main farming armor and tool sets(Gemstone Tiers doesn't matter, can be fines, rough)

Max out your attribute shards as you go from hunting as well as maxing out the chips as you can get some of the better ones through prioritizing Jacob's contests and buying them from Anita's shop after you get everything else you need from her

GThumb can be obtained through the greenhouse by analyzing high tier crops so only do that once you get everything else including the accessory line, remember always to equip Rose Dragon Pet if you have it, it grants 10.1% ~ 20% more Copper when analyzing mutations and accepting Visitors.

How to do Pest Farming

All Setups here has a default of having **Buzzybee's Fantabulous Disco Destination(suck box)** to achieve maximum efficiency + profit. If no, its okay just save the feast drops :)

With 1 Set Helianthus

You'll reforge your Armor to **3/4 Mossy** and **1/4 Mantid**, with a **General Farming Pet (BiS Rose Dragon + Hedgehog for Pet Rules)** and a **Pest Farming Pet (BiS Mosquito)**, use Sprayonator on plot.

Farm with **Rose Dragon** until **Pest Cooldown Ready**, swap to **Pest Farming Pet(Slug, Mosquito)**, then farm until **Pests spawns**, equip **Rose Dragon**, kill pests. After killing, swap back to **Rose Dragon**, continue the cycle.

Pet Rules

Throw Rod -> Equip Mosquito except Mosquito equipped, except Hedgehog equipped

Throw Rod -> Equip Hedgehog except Hedgehog equipped, except Rose Dragon equipped

Throw Rod -> Equip Rose Dragon except Rose Dragon equipped, except Mosquito equipped

How to execute it exactly

1. Before start farming, spray your plots
2. Give Philip 40 Pests to get 200FF(400FF with max Lvl Hypercharge Chip)
3. Throw your Fishing Rod until you get your General Farming Pet(Rose Dragon/Elephant/Mooshroom Cow)
4. Farm until your Pest Cooldown is Ready(Skyhanni had a tab indicating that)
5. Throw your Fishing Rod until you get Mosquito/Slug Equipped, continue farming until pests spawn
6. If Pests spawn, throw rod until Hedgehog equips, kill pests
7. After killing throw rod equip Rose Dragon, go back repeat step 3 until your Sprayonator and Philip Buff runs out, repeat from step 1.
